Notes about quarterly comparisons

Specific incidences which are not obvious in annualised data may get magnified in quarterly data, thereby making comparisons more volatile. Some of these may include:

- track closures due to fire, winds or weather;
- bad weather may discourage visits (especially by Tasmanians who can change their minds and plans at short notice);
- good snow conditions encourage visits to some sites (especially Tasmanians); however snow cover varies between years;
- local issues (such as the Maria Island ferry access, number of Cruise Ships in Hobart or Burnie); and
- Easter holidays fall in the March Quarter in some years (month of March), but in June Quarters (April) in other years:

2005 - March (March Quarter)
2006 - April (June Quarter)
2007 - April (June Quarter)
2008 - March (March Quarter)
2009 - April (June Quarter)
2010 - April (June Quarter)
2011 - April (June Quarter)
